WORK EXPERIENCE

Laravel/rest API To do app

I made a todo app using TDD and rest api

Laravel/bootstrap blog page

Users can post and make comments, and there is an administrator who can block users or make them moderators, and moderators can approve or delete posts and comments.

Laravel Product ordering app

In this application it is possible to find the product and place the order during the session and while the user can view the orders and give it status fulfilled/cancelled

SKILLS

Skill	Value
bootstrap	0.25
MYSQL	0.75
JS	0.5
CSS	0.25
